THEORY OF CHANGE

REMOVING FINANCIAL BARRIERS. BUILDING BRIGHTER FUTURES.

Change happens when we remove financial barriers through structured martial arts and trusted relationships, leading to lasting improvements in the lives of children, young people and their communities.

> Every scholarship is more than financial support. It is an investment in a young person's future.

COMMUNITY NEED

Many children and young people face financial barriers that prevent them from accessing structured activities and the positive relationships, experiences and development sense of belonging that help them thrive.

- Rising cost of living creates significant difficulties.
- Missed opportunities affect confidence, wellbeing and development.
- Early intervention is vital to prevent future challenges.
- Without intervention, financial barriers can limit opportunities and future life outcomes.
